Eldritch tricks are no match for your bestial ferocity. Prerequisites: Str 15, natural weapons, base attack bonus +6. Benefit: Your natural weapons are considered both magic and silver for purpose of overcoming damage reduction. Appears In : Advanced Player's Guide
Alertness Feat You often notice things that others might miss. Benefit: You get a +2 bonus on Perception and Sense Motive skill checks. If you have 10 or more ranks in one of these skills, the bonus increases to +4 for that skill. Benefit: When you use Elemental Strike pick one of the following energy types: acid, cold, electricity, or fire. On a successful hit, the attack deals damage normally plus 1d6 points of damage of the chosen type. You must declare that you are using this feat before you make your attack roll (thus a failed attack roll ruins the attempt). You may attempt an elemental fist attack once per day for every four levels you have attained (see Special), and no more than once per round. Special: A monk of the four winds receives Elemental Fist as a bonus feat at 1st level, even if he does not meet the prerequisites. A monk may attempt an Elemental Fist attack a number of times per day equal to his monk level, plus one more time per day for every four levels he has in classes other than monk. Appears In : Advanced Player's Guide
Athletic Feat You possess inherent physical prowess. Benefit: You get a +2 bonus on Climb and Swim skill checks. If you have 10 or more ranks in one of these skills, the bonus increases to +4 for that skill. Appears In : Not Consolidated Skills	Feral Combat Training (Bite [Worg]) Feat You were taught a style of martial arts that relies on the natural weapons from your racial ability or class feature. Prerequisites: Improved Unarmed Strike, Weapon Focus with selected natural weapon, proficiency with selected weapon, base attack bonus +1. Benefit: Choose one of your natural weapons. While using the selected natural weapon, you can apply the effects of feats that have Improved Unarmed Strike as a prerequisite, as well as effects that augment an unarmed strike. Special: If you are a monk, you can use the selected natural weapon with your flurry of blows class feature. Appears In : DSP - Ultimate Psionics
Complex Essence Feat You embody more than one of the aspects of draconic personality. Prerequisites: draconic essence class feature Benefit: You can select a second draconic essence that has an alignment matching yours. An imbued weapon damages incorporeal creatures as though it were magical. If the imbued weapon has an enhancement bonus of +2 or greater, it functions as a <i>ghost touch</i> weapon. A weapon imbued in this way can deal precision damage (such as sneak attack damage) to incorporeal creatures. Appears In : Haunted Heroes Handbook
Crushing Blow (-11) Feat Your focus allows you to smash your enemy's defenses. Prerequisites: Improved Unarmed Strike, Stunning Fist. Benefit: You can make a Stunning Fist attempt as a full-round action. If successful, instead of stunning your target, you reduce the target's AC by an amount equal to your Wisdom modifier for 1 minute. This penalty does not stack with other penalties applied due to Crushing Blow. Appears In : Ultimate Combat	
Deepsight Feat Your senses are especially keen in the utter darkness. Prerequisite: Darkvision 60 feet. Benefit: Your darkvision has a range of 120 feet. Normal: Darkvision normally extends 60 or 90 feet. Appears In : Advanced Player's Guide

This feat has no effect on targets that are staggered.

Improved Trip Feat

You are skilled at sending your opponents to the ground.

Prerequisite: Int 13, Combat Expertise.

Benefit: You do not provoke an attack of opportunity when performing a trip combat maneuver. In addition, you receive a +2 bonus on checks made to trip a foe. You also receive a +2 bonus to your Combat Maneuver Defense whenever an opponent tries to trip you.

Normal: You provoke an attack of opportunity when performing a trip combat maneuver.

Appears In : Not New Paths Option: Use Scaling Feats

Improved Unarmed Strike Feat

You are skilled at fighting while unarmed.

Benefit: You are considered to be armed even when unarmed – you do not provoke attacks of opportunity when you attack foes while unarmed. Your unarmed strikes can deal lethal or nonlethal damage, at your choice.

Normal: Without this feat, you are considered unarmed when attacking with an unarmed strike, and you can deal only nonlethal damage with such an attack.

Iron Will Feat

You are more resistant to mental effects.

Medusa's Wrath Feat

You can take advantage of your opponent's confusion, delivering multiple blows.

Prerequisites: Improved Unarmed Strike, Gorgon's Fist, Scorpion Style, base attack bonus +11.

Benefit: Whenever you use the full-attack action and make at least one unarmed strike, you can make two additional unarmed strikes at your highest base attack bonus. These bonus attacks must be made against a dazed, flat-footed, paralyzed, staggered, stunned, or unconscious foe.

Scorpion Style (DC 31) Feat

You can perform an unarmed strike that greatly hampers your target's movement.

Prerequisite: Improved Unarmed Strike.

Benefit: To use this feat, you must make a single unarmed attack as a standard action. If this unarmed attack hits, you deal damage normally, and the target's base land speed is reduced to 5 feet for a number of rounds equal to your Wisdom modifier unless it makes a Fortitude saving throw (DC 10 + 1/2 your character level + your Wis modifier.)

Stunning Fist (5/day, DC 31) You know just where to strike to temporarily stun a foe. Prerequisites: Dex 13, Wis 13, Improved Unarmed Strike, base attack bonus +8. Benefit: You must declare that you are using this feat before you make your attack roll (thus, a failed attack roll ruins the attempt). Stunning Fist forces a foe damaged by your unarmed attack to make a Fortitude saving throw (DC 10 + 1/2 your character level + your Wis modifier), in addition to dealing damage normally. A defender who fails this saving throw is stunned for 1 round (until just before your next turn). A stunned character drops everything held, can't take actions, loses any Dexterity bonus to AC, and takes a –2 penalty to AC. You may attempt a stunning attack once per day for every four levels you have attained (but see Special), and no more than once per round. Constructs, oozes, plants, undead, incorporeal creatures, and creatures immune to critical hits cannot be stunned. Special: A monk receives Stunning Fist as a bonus feat at 1st level, even if he does not meet the prerequisites. A monk may attempt a stunning attack a number of times per day equal to his monk level, plus one more time per day for every four levels he has in classes other than monk.	Feat
Blindsense (30 feet) (Ex) Using nonvisual senses, such as acute smell or hearing, a creature with blindsense notices things it cannot see. The creature usually does not need to attempt Perception checks to pinpoint the location of a creature within range of its blindsense ability, provided that it has line of effect to that creature. Any opponent the creature cannot see still has total concealment against the creature with blindsense, and the creature still has the normal miss chance when attacking foes that have concealment. Visibility still affects the movement of a creature with blindsense. A creature with blindsense is still denied its Dexterity bonus to Armor Class against attacks from creatures it cannot see.	Racial Ability
Breath Weapon (20d4 sonic, 30 ft. cone, DC 31) (Su) The draconic exemplar gains the breath weapon associated with his draconic essence. This is either a cone or line of his draconic essence's energy type usable as a standard action that deals 1d4 or 1d6 points (as listed for the draconic exemplar's draconic essence) of energy damage per class level. Creatures in the breath weapon's area can make a Reflex save for half damage. The draconic exemplar can use his breath weapon once every 1d4 rounds. The saving throw of this ability is Constitution-based.	Unknown
Breath Weapon (20d6 electricity, 60 ft. line, DC 31) (Su) The draconic exemplar gains the breath weapon associated with his draconic essence. This is either a cone or line of his draconic essence's energy type usable as a standard action that deals 1d4 or 1d6 points (as listed for the draconic exemplar's draconic essence) of energy damage per class level. Creatures in the breath weapon's area can make a Reflex save for half damage. The draconic exemplar can use his breath weapon once every 1d4 rounds. The saving throw of this ability is Constitution-based.	Unknown
Damage Reduction (10/chaotic) You have Damage Reduction against all except Chaotic attacks.	Unknown
Darkvision (60 feet) A creature with darkvision can see in total darkness, usually to a range of 60 feet. Within this range the creature can see as clearly as a sighted creature could see in an area of bright light. Darkvision is black and white only but otherwise like normal sight.	Racial Ability,Senses (Dragon)
Dexterous Claws Taninim have two claw secondary natural attacks that deal 1d3 points of damage. Their claws are nimble enough to manipulate manufactured tools and hold items without impairing their movement. A taninim can even wield weapons but is restricted to only wielding weapons in one hand at a time, suffers a -2 penalty to all attack rolls with manufactured weapons, and can only move at half speed.	Racial Ability (Taninim)
Elemental Aura (+5d6 electricity) (Su) As a swift action, the draconic exemplar can cause energy appropriate to his draconic essence to boil up out of his limbs for 1 round. The draconic exemplar's natural attacks deal +1d6 points of the appropriate energy damage, plus an additional +1d6 for every five class levels (maximum +5d6 at 20th level).	Unknown
Energy Resistance, Electricity (30) You have the specified Energy Resistance against Electricity attacks.	Unknown
Fly (90 feet, Clumsy) A creature with this ability can cease or resume flight as a free action. If the ability is supernatural, it becomes ineffective in an antimagic field, and the creature loses its ability to fly for as long as the antimagic effect persists.	Unknown
Immunity to Disease You are immune to diseases.	Unknown
Immunity to Paralysis You are immune to paralysis.	Unknown
Immunity to Poison You are immune to poison.	Unknown
Immunity to Sleep You are immune to sleep effects.	Unknown
Immunity to Sonic You are immune to sonic damage.	Unknown
Low-Light Vision A creature with low-light vision can see twice as far as a human in starlight, moonlight, torchlight, and similar conditions of dim light. It retains the ability to distinguish color and detail under these conditions.	Racial Ability,Senses

Scent (Ex)

Racial Ability

This special quality allows a creature to detect approaching enemies, sniff out hidden foes, and track by sense of smell. Creatures with the scent ability can identify familiar odors just as humans do familiar sights.

The creature can detect opponents within 30 feet by sense of smell. If the opponent is upwind, the range increases to 60 feet; if downwind, it drops to 15 feet. Strong scents, such as smoke or rotting garbage, can be detected at twice the ranges noted above. Overpowering scents, such as skunk musk or troglodyte stench, can be detected at triple normal range.

When a creature detects a scent, the exact location of the source is not revealed - only its presence somewhere within range. The creature can take a move action to note the direction of the scent. When the creature is within 5 feet of the source, it pinpoints the source's location.

A creature with the scent ability can follow tracks by smell, making a Wisdom (or Survival) check to find or follow a track. The typical DC for a fresh trail is 10 (no matter what kind of surface holds the scent). This DC increases or decreases depending on how strong the quarry's odor is, the number of creatures, and the age of the trail. For each hour that the trail is cold, the DC increases by 2. The ability otherwise follows the rules for the Survival skill. Creatures tracking by scent ignore the effects of surface conditions and poor visibility.

Spell Resistance (31)

Unknown

You have Spell Resistance.

Telepathy (300 ft.) (Su)

Racial Ability (Brain Wurm)

The creature can mentally communicate with any other creature within a certain range (specified in the creature's entry, usually 100 feet) that has a language. It is possible to address multiple creatures at once telepathically, although maintaining a telepathic conversation with more than one creature at a time is just as difficult as simultaneously speaking and listening to multiple people at the same time.

Appears In : Carrion Crown

Trip: Bite (Ex)

Racial Ability (Worg)

A creature with the trip special attack can attempt to trip its opponent as a free action without provoking an attack of opportunity if it hits with the specified attack. If the attempt fails, the creature is not tripped in return.

Unarmed Strike (2d10)

Unknown

At 1st level, a monk gains Improved Unarmed Strike as a bonus feat. A monk's attacks can be with fists, elbows, knees, and feet. This means that a monk can make unarmed strikes with his hands full. There is no such thing as an off-hand attack for a monk striking unarmed. A monk can apply his full Strength bonus on damage rolls for all his unarmed strikes. A monk's unarmed strikes deal lethal damage, although he can choose to deal nonlethal damage with no penalty on his attack roll. He can make this choice while grappling as well.

A monk's unarmed strike is treated as both a manufactured weapon and a natural weapon for the purpose of spells and effects that enhance or improve either manufactured weapons or natural weapons.

The damage dealt by a monk's unarmed strike is determined by the unarmed damage column on Table 1–2: Monk. The damage listed is for Medium monks. The damage for Small or Large monks is listed below.

Unfettered Predator

Racial Ability (Taninim)

Taninim can only wear armor designed expressly for draconic bodies, and even then chafe at the restrictions armor can cause to their natural movements. Taninim increase the armor check penalty of any worn armor by 2, and suffer a -2 penalty on attack rolls while wearing medium or heavy armor even if they are proficient in it. Taninim also reduce their maneuverability rating by one step when flying while wearing medium or heavy armor. These penalties apply regardless of any armor proficiency the taninim has.

Abundant Step (Su)

Class Ability (Monk)

At 12th level or higher, a monk can slip magically between spaces, as if using the spell *dimension door*. Using this ability is a move action that consumes 2 points from his ki pool. His caster level for this effect is equal to his monk level. He cannot take other creatures with him when he uses this ability.

Animal Companion (Ex)

Class Ability (Hunter)

At 1st level, a hunter forms a bond with an animal companion. A hunter may begin play with any of the animals available to a druid. This animal is a loyal companion that accompanies the hunter on her adventures. This ability functions like the druid animal companion ability (which is part of the nature bond class feature). The hunter's effective druid level is equal to her hunter level. If a character receives an animal companion from more than one source, her effective druid levels stack for the purposes of determining the companion's statistics and abilities. A hunter may teach her companion hunter's tricks from the skirmisher ranger archetype (Pathfinder RPG Advanced Player's Guide 128) instead of standard tricks. The animal companion can use skirmisher tricks when commanded, a number of times per day equal to half its Hit Dice plus its Wisdom modifier.

If a hunter releases her companion from service or her animal companion perishes, she may gain a new one by performing a ceremony requiring 24 uninterrupted hours of prayer in the environment where the new companion typically lives. While the hunter's animal companion is dead, any animal she summons with a *summon nature's ally* spell remains for 1 minute per level instead of 1 round per level. A hunter cannot have more than one *summon nature's ally* spell active in this way at one time. If this ability is used again, any existing *summon nature's ally* immediately ends.

Animal Companion Link (Ex)

Class Ability (Hunter)

Masters can handle their animal companion as a free action, or push it as a move action, even if they don't have any ranks in the Handle Animal skill. The link grants a +4 circumstance bonus on all wild empathy checks and Handle Animal checks made regarding an animal companion.

PC) Iskandai (Galli) – Abilities & Gear

Animal Focus (1 minutes/day) (Su) Class Ability (Hunter)

At 1st level, a hunter can take on the aspect of an animal as a swift action. She must select one type of animal to emulate, gaining a bonus or special ability based on the type of animal emulated and her hunter level. The hunter can use this ability for a number of minutes per day equal to her level. This duration does not need to be consecutive, but must be spent in 1-minute increments. The hunter can emulate only one animal at a time. The hunter can also apply one of these aspects to her animal companion. Unlike with the hunter herself, there is no duration on the animal aspect applied to her animal companion. An aspect applied in this way does not count against the hunter's minutes of duration per day—it remains in effect until the hunter changes it. The companion's aspect can be the same aspect the ranger has taken on or a different one. The hunter can select or change the animal foci on both herself and her animal companion as part of the same swift action.

If the hunter's animal companion is dead, the hunter can apply her companion's animal focus to herself instead of her animal companion. This is in addition to the normal one she can choose, and (as with a companion's focus) remains in effect until the hunter changes it instead of counting against her minutes per day.

At 8th level, whenever a hunter uses her animal focus ability, she selects two different animal aspects for herself instead of one, and can assign two aspects to her companion instead of one. As with the companion's previous aspect, the second one does not count against the minutes per day a hunter can take on an aspect. If the hunter's animal companion is dead and the hunter has applied the companion's animal aspect to herself, that aspect does not count toward her maximum of two aspects at once. The hunter can still apply only one of her dead companion's aspects to herself, not both.

Note: On the Hunter tab or the Animal Focus tab on your animal companion, you can add as many or as few animal focuses as you wish, so that you can save space by choosing only your favorites or add them all so you can see all your options. You can activate the focuses you are currently using on the In-Play tab.

Dracomorphosis (Ex) Class Ability (Draconic Exemp

At 4th level, the draconic exemplar increases his size to Medium, adjusting the base damage of his natural attacks accordingly. He gains two secondary wing attacks that deal 1d4 points of damage, or gains a primary gore attack that deals 1d6 points + 1 ½ times the draconic exemplar's Strength bonus points of damage if he has the Lung alternate racial trait. The reach of his bite attack (and gore, if any) increases to 10 feet. He gains a +2 size bonus to Strength and a +2 size bonus to his natural armor bonus to AC. He gains the ability to fly with a base speed of 60 feet and average maneuverability. This flight is considered a supernatural ability.

At 8th level, the draconic exemplar increases his size to Large, adjusting his space and the base damage of his natural attacks accordingly. He gains a secondary tail slap attack that deals 1d8 + 1 ½ times the draconic exemplar's Strength bonus points of damage. He gains an additional +2 size bonus to Strength, a +2 size bonus to Constitution, and reduces his Dexterity by 2. He has poor maneuverability while flying. His size bonus to his natural armor bonus to AC increases to +5.

At 12th level, the draconic exemplar increases his size to Huge, adjusting his space and the base damage of his natural attacks accordingly. His reach increases to 10 feet (15 feet for his bite attack and gore attack, if any). He gains an additional +2 size bonus to Strength and further reduces his Dexterity by 2 (4 total). His size bonus to his natural armor bonus to AC increases to +8.

The draconic exemplar also gains the ability to crush smaller creatures with its bulk by jumping or landing on them as a standard action. Crush attacks are effective only against opponents three or more size categories smaller than the draconic exemplar, and affect as many creatures as fit in his space. Creatures in the affected area must succeed on a Reflex save (DC 10 + ½ the draconic exemplar's class level + the draconic exemplar's Constitution modifier) or be pinned, automatically taking 2d8 + 1 ½ times the draconic exemplar's Strength bonus bludgeoning damage. If the draconic exemplar chooses to maintain the pin, he must succeed at a combat maneuver check as normal. Pinned creatures take damage from the crush each round if they don't escape.

At 16th level, the draconic exemplar increases his size to Gargantuan, adjusting his space and the base damage of his natural attacks accordingly. His reach increases to 15 feet (20 feet for his bite attack and gore attack, if any). He gains an additional +2 size bonus to Strength, an additional +2 size bonus to Constitution, and further reduces his Dexterity by 2 (6 total). He has clumsy maneuverability while flying. His size bonus to his natural armor bonus to AC increases to +11. His crush damage increases to 4d6 + 1 ½ times his Strength bonus.

The draconic exemplar also gains the ability to sweep with its tail as a standard action. The sweep affects a half-circle with a radius of 30 feet, extending from an intersection on the edge of the draconic exemplar's space in any direction. Creatures within the swept area are affected if they are four or more size categories smaller than the draconic exemplar. A tail sweep automatically deals 2d6 + 1 ½ times the draconic exemplar's Strength bonus bludgeoning damage. Affected creatures can attempt Reflex saves (DC 10 + ½ the draconic exemplar's class level + the draconic exemplar's Constitution modifier) to take half damage.

Draconic Defense Class Ability (Draconic Exemp

At 2nd level and every three additional levels, the draconic exemplar improves his defensive capabilities by selecting one of the following draconic defenses. A draconic defense can only be taken once unless otherwise noted.

Draconic Defense (Nictating Membranes) (Su)Class Ability (Draconic Exemp

The draconic exemplar is immune to being dazzled. Once per day, the draconic exemplar can reroll a saving throw against a spell or effect that causes blindness, a gaze attack, or an illusion with the pattern or figment descriptor. The draconic exemplar must decide to use this ability before the results are revealed, and must take the second roll even if it is worse. If the draconic exemplar is at least 10th level, he can use this ability twice per day. In addition, whenever the draconic exemplar would suffer a partial effect from succeeding on a saving throw against an effect that causes blindness, a gaze attack, or an illusion with the pattern or figment descriptor, he instead negates the effect.

The draconic exemplar must select an essence from the following list that has a listed alignment within one step of his alignment. He gains resist energy 5 for his draconic essence's energy type. This increases to resist energy 10 at 5th level, resist energy 20 at 10th level, and resist energy 30 at 15th level. If the draconic exemplar gains the breath weapon draconic weaponry, his draconic essence determines the shape and damage die of his breath weapon. The DC to resist a compulsion is 10 + ½ the draconic exemplar's character level + the draconic exemplar's Charisma modifier. His physical appearance takes on aspects of the associated true dragon, with the amount of required similarity subject to GM discretion (a significant amount of visual flexibility is encouraged, particularly for draconic exemplars with the Feykin or Lung alternate racial traits).

Many draconic gifts are augmentations or modifications of draconic weaponry; these gifts expend one daily use of draconic weaponry when used unless otherwise noted. Saving throws allowed by these abilities have a DC equal to 10 + ½ the draconic exemplar's class level + the draconic exemplar's Charisma or Constitution modifier, as noted in the ability. The draconic exemplar's effective caster level is equal to his class level if needed for any spell-like or supernatural abilities. A draconic gift can only be learned once unless otherwise noted.

At 7th, 13th, and 19th level, the draconic exemplar gains an additional special attack. He can use his draconic weaponry special attacks a number of times per day equal to his $\frac{1}{2}$ his paragon class level + his Constitution modifier. Draconic Weaponry (Frightful Presence, D)Class Ability (Draconic Exemp

The draconic exemplar instinctively strikes fear into the hearts of his enemies. As a standard action, or as a free action as part of a charge, the draconic exemplar can make all opponents within 30 feet shaken for 1 round/level. At 8th level and every four additional levels, the range of this ability increases by 30 feet (maximum 150 foot range at 20th level). A successful Will save negates this effect, and an opponent that succeeds on the saving throw is immune to the draconic exemplar's frightful presence for 24 hours. This ability only affects opponents with Hit Dice less than the draconic exemplar's class level. This ability is a mind-affecting fear effect. The saving throw for this ability is Charisma-based.

Empty Body (Su) Class Ability (Monk)

At 19th level, a monk gains the ability to assume an ethereal state for 1 minute as though using the spell *etherealness*. Using this ability is a move action that consumes 3 points from his ki pool. This ability only affects the monk and cannot be used to make other creatures ethereal.

Fast Movement (+60 ft.) Class Ability (Monk)

At 3rd level, a monk gains an enhancement bonus to his land speed. A monk in armor or carrying a medium or heavy load loses this extra speed. By spending 1 point from his ki pool, he can increase his speed by 20 feet for 1 round.

Flurry of Blows +38/+38/+33/+33/+28/+28/+23 Class Ability (Monk)

Starting at 1st level, a monk can make a flurry of blows as a full-attack action. When doing so, he may make one additional attack, taking a -2 penalty on all of his attack rolls, as if using the Two-Weapon Fighting feat. These attacks can be any combination of unarmed strikes and attacks with a monk special weapon (he does not need to use two weapons to utilize this ability). For the purpose of these attacks, the monk's base attack bonus from his monk class levels is equal to his monk level. For all other purposes, such as qualifying for a feat or a prestige class, the monk uses his normal base attack bonus.

At 8th level, the monk can make two additional attacks when he uses flurry of blows, as if using Improved Two-Weapon Fighting (even if the monk does not meet the prerequisites for the feat).

At 15th level, the monk can make three additional attacks using flurry of blows, as if using Greater Two-Weapon Fighting (even if the monk does not meet the prerequisites for the feat).

A monk applies his full Strength bonus to his damage rolls for all successful attacks made with flurry of blows, whether the attacks are made with an off-hand or with a weapon wielded in both hands. A monk may substitute disarm, sunder, and trip combat maneuvers for unarmed attacks as part of a flurry of blows. A monk cannot use any weapon other than an unarmed strike or a special monk weapon as part of a flurry of blows. A monk with natural weapons cannot use such weapons as part of a flurry of blows, nor can he make natural attacks in addition to his flurry of blows attacks.

PC) Iskandai (Galli) – Abilities & Gear

Great Wyrms (Ex)

Class Ability (Draconic Exemplar)

At 20th level, the draconic exemplar reaches the epitome of dragonkind. He increases his size to Colossal, adjusting his space and the base damage of his natural attacks accordingly. His reach increases to 20 feet (30 feet for his bite attack and gore attack, if any). He gains an additional +2 size bonus to Strength and further reduces his Dexterity by 2 (8 total). His size bonus to his natural armor bonus to AC increases to +14. His crush damage increases to 4d8 + 1 ½ times his Strength bonus, and his tail sweep damage increases to 2d8 + 1 ½ times his Strength bonus. The draconic exemplar also gains immunity to his draconic essence's energy type, or DR 5/adamantine if he has the wrathful draconic essence.

High Jump (+20/+40 with ki point) (Ex) Class Ability (Monk)

At 5th level, a monk adds his level to all Acrobatics checks made to jump, both for vertical jumps and horizontal jumps. In addition, he always counts as having a running start when making jump checks using Acrobatics. By spending 1 point from his ki pool as a swift action, a monk gains a +20 bonus on Acrobatics checks made to jump for 1 round.

Improved Evasion (Ex) Class Ability (Monk)

If exposed to any effect that normally allows her to attempt a Reflex saving throw for half damage, you takes no damage with a successful saving throw and half damage on a failed saving throw.

Ki Defense +4 (Su) Class Ability (Monk)

A monk can spend 1 point from his ki pool to give himself a +4 dodge bonus to AC for 1 round.

Ki Flurry (Su) Class Ability (Monk)

By spending 1 point from his ki pool, a monk can make one additional attack at his highest attack bonus when making a flurry of blows attack.

Ki Pool (21/day) (Su) Class Ability (Monk)

At 4th level, a monk gains a pool of ki points, supernatural energy he can use to accomplish amazing feats. The number of points in a monk's ki pool is equal to 1/2 his monk level + his Wisdom modifier.

A monk gains additional powers that consume points from his ki pool as he gains levels.

The ki pool is replenished each morning after 8 hours of rest or meditation; these hours do not need to be consecutive.

For a Ninja, the Ki Pool is based on Charisma, rather than Wisdom.

Note: Unchained monks gain this ability at 3rd level.

Ki Speed (Su) Class Ability (Monk)

By spending 1 point from his ki pool, a monk can increase his base speed by 20 feet for 1 round.

Ki Strike, Adamantine (Su) Class Ability (Monk)

At 16th level, a monk's unarmed attacks are treated as adamantite weapons for the purpose of overcoming damage reduction and bypassing hardness.

Ki Strike, Cold Iron/Silver (Su) Class Ability (Monk)

At 7th level, a monk's unarmed strikes count as cold iron and silver for the purposes of overcoming damage reduction.

Ki Strike, Lawful (Su) Class Ability (Monk)

At 10th level, a monk's unarmed attacks are also treated as lawful weapons for the purpose of overcoming damage reduction.

Ki Strike, Magic (Su)

Class Ability (Monk)

At 4th level, ki strike allows a monk's unarmed attacks to be treated as magic weapons for the purpose of overcoming damage reduction.

Note: Unchained monks gain this ability at 3rd level, when they gain a ki pool.

Maneuver Training (Ex) Class Ability (Monk)

For the purpose of calculating CMB, you add your full monk levels, rather than 3/4 of your monk levels.

Perfect Self Class Ability (Monk)

At 20th level, a monk becomes a magical creature. He is forevermore treated as an outsider rather than a humanoid (or whatever his original creature type was) for the purpose of spells and magical effects. Additionally, the monk gains damage reduction 10/chaotic, which allows him to ignore the first 10 points of damage from any attack made by a nonchaotic weapon or by any natural attack made by a creature that doesn't have similar damage reduction. Unlike other outsiders, the monk can still be brought back from the dead as if he were a member of his previous creature type.

Predator's Claws (Ex) Class Ability (Draconic Exemplar)

At 1st level, the draconic exemplar's claws become primary natural attacks that deal 1d4 points of damage.

Quivering Palm (1/day, DC 31) (Su) Class Ability (Monk)

Starting at 15th level, a monk can set up vibrations within the body of another creature that can thereafter be fatal if the monk so desires. He can use this quivering palm attack once per day, and he must announce his intent before making his attack roll. Creatures immune to critical hits cannot be affected. Otherwise, if the monk strikes successfully and the target takes damage from the blow, the quivering palm attack succeeds. Thereafter, the monk can try to slay the victim at any later time, as long as the attempt is made within a number of days equal to his monk level. To make such an attempt, the monk merely wills the target to die (a free action), and unless the target makes a Fortitude saving throw (DC 10 + 1/2 the monk's level + the monk's Wis modifier), it dies. If the saving throw is successful, the target is no longer in danger from that particular quivering palm attack, but it may still be affected by another one at a later time. A monk can have no more than 1 quivering palm in effect at one time. If a monk uses quivering palm while another is still in effect, the previous effect is negated.

Share Spells with Companion (Ex) Class Ability (Hunter)

The druid may cast a spell with a target of "You" on her animal companion (as a spell with a range of touch) instead of on herself. A druid may cast spells on her animal companion even if the spells normally do not affect creatures of the companion's type (animal). Spells cast in this way must come from a class that grants an animal companion. This ability does not allow the animal to share abilities that are not spells, even if they function like spells.

Slow Fall any distance (Ex) Class Ability (Monk)

At 4th level or higher, a monk within arm's reach of a wall can use it to slow his descent. When first gaining this ability, he takes damage as if the fall were 20 feet shorter than it actually is. The monk's ability to slow his fall (that is, to reduce the effective distance of the fall when next to a wall) improves with his monk level until at 20th level he can use a nearby wall to slow his descent and fall any distance without harm.

Stunning Fist (Stun, Fatigue, Sicken, Stagge Class Ability (Monk)

At 1st level, the monk gains Stunning Fist as a bonus feat, even if he does not meet the prerequisites. At 4th level, and every 4 levels thereafter, the monk gains the ability to apply a new condition to the target of his Stunning Fist. This condition replaces stunning the target for 1 round, and a successful saving throw still negates the effect. At 4th level, the monk can choose to make the target fatigued. At 8th level, he can make the target sickened for 1 minute. At 12th level, he can make the target staggered for 1d6+1 rounds. At 16th level, he can permanently blind or deafen the target. At 20th level, he can paralyze the target for 1d6+1 rounds. The monk must choose which condition will apply before the attack roll is made. These effects do not stack with themselves (a creature sickened by Stunning Fist cannot become nauseated if hit by Stunning Fist again), but additional hits do increase the duration.

Timeless Body (Mature) (Ex) Class Ability (Monk)

At 17th level, a monk no longer takes penalties to his ability scores for aging and cannot be magically aged. Any such penalties that he has already taken, however, remain in place. Age bonuses still accrue, and the monk still dies of old age when his time is up.

Note: Use the selector to choose the age category at which you gained this ability. All subsequent age categories will not apply penalties.

Tongue of the Sun and Moon (Ex) Class Ability (Monk)

At 17th level, a monk can understand and speak with any living creature, as if under a permanent *tongues* effect.

Note: The Unchained monk gains this ability at 13th level.

Wholeness of Body (20 hit points) (Su) Class Ability (Monk)

At 7th level or higher, a monk can heal his own wounds as a standard action. He can heal a number of hit points of damage equal to his monk level by using 2 points from his ki pool.

Wild Empathy +10 (Ex) Class Ability (Hunter)

A character can improve the attitude of an animal. This ability functions just like a Diplomacy check made to improve the attitude of a person. The character rolls 1d20 and adds her class level and her Charisma modifier to determine the wild empathy check result.

The typical domestic animal has a starting attitude of indifferent, while wild animals are usually unfriendly.

To use wild empathy, the druid and the animal must be able to study each other, which means that they must be within 30 feet of one another under normal conditions. Generally, influencing an animal in this way takes 1 minute but, as with influencing people, it might take more or less time.

A character can also use this ability to influence a magical beast with an Intelligence score of 1 or 2, but she takes a -4 penalty on the check.
